Amsterdam

With its unique combination of Old World charm and cosmopolitan culture, Amsterdam is one of the most popular European cities for international visitors.
The Netherlands

The Netherlands is a geographically low-lying and densely populated country. It is popularly known for its windmills, Delta works, cheese, wooden shoes, delftware, tulips, and bicycles.

4ᵗʰ State-of-the-Art Congress:
Rehabilitation: Mobility, Exercise & Sports
April 7-9, 2009

Dear Colleague,

You are kindly invited to participate in our 4ᵗʰ 3-day International Congress from April 7-9, 2009 on "Rehabilitation: Mobility, Exercise & Sports". As always, the Congress will be held in the main building of the VU University Amsterdam, The Netherlands. It is indeed the fourth time since 1991 this congress is organized by the Faculty of Human Movement Sciences, and it stresses the strong and natural link between the fields of rehabilitation and human movement sciences, both in theory and practice!

The theme of the 4ᵗʰ congress underlines the developments taking place in our research since 1991: from a strongly manual wheelchair-oriented focus back then, towards the much broader perspective of mobility restoration, active lifestyle, exercise, training and sports in the context of rehabilitation practice today.

The internationally renowned experts in the field of rehabilitation, mobility, exercise and sports Maria Hopman, Walter Frontera, Rory Cooper, Dudley Childress, Yves Vanlandewijck, Mark Nash, Vicky Goosey-Tolfrey, Karin Gerrits and Ivo van Hilvoorde have accepted the invitation to present their views on the current state-of-the-art on different topics in rehabilitation and human movement sciences.

Clinicians and other professionals from rehabilitation, human movement and exercise sciences, as well as researchers in (wheeled) mobility, exercise and adapted sports are invited to submit abstracts and present their work and/or attend and participate in the congress.

Don't miss it!

Lucas HV van der Woude,
Chair of the Organizing Committee

Preliminary list of topics

Mobility
- Wheeled mobility
- Handcycling
- Prosthetics & orthotic gait
- Aging & chronic disease

Exercise
- Exercise capacity
- Physical activity
- Training
- FES & hybrid exercise

Sports
- Performance
- Running
- Wheeled sports
- Disability & classification

1st Announcement

4TH INT REHAB CONGRESS

Call for Abstracts
Abstract submissions for both oral and poster presentations are subject to review by the scientific committee. Abstract submissions will be accepted for processing through web-based submission only. For further information and submission guidelines, please see:
www.move.vu.nl/links/rehabmove2009

Important Dates
- December 1ˢᵗ, 2008
  Deadline for abstract submission
- January 23ʳᵈ, 2009
  Notification of acceptance

Exhibition
Next to oral and poster presentations a professional exhibition will be organized.

Accreditation
Accreditation for continuing (para-) medical education is being applied for.
